Re:

## **Mainframe Backup Procedures**

The mainframe dasd backups and the daily master file backups are sent offsite Tuesday through Saturday. The weekly master file backups are sent offset every Tuesday of the week. The monthly master file backups are sent offsite twice a month, on the 6<sup>th</sup> and the 16 working day of every month. The quarterly master files are sent offsite on the 2<sup>nd</sup> working day before the end of the quarterly processing month. The annual master files are sent offsite on the 11<sup>th</sup> working day in the month of February.

All files are held at Vital Records (Home's official offsite location for tape media). The backups for all cycles are not to be returned to the Home Office until a new backup cycle has been created and located offsite in Vital Records. All cases to be shipped offsite are to be marked with the following information:

- a. Name of Company.
- b. Return Date.
- c. Special code signifying the type of backup.

Description	Type of Backup	Frequency
Daily Dasd Backup	IMDY	Tuesday through Saturday
Daily Master Files	IMDY	Tuesday through Saturday
Weekly Master Files	IMWK	Tuesday of every week
Monthly Master Files	IMMY	6 & 16 working day of every month
Quarterly Master Files	IMQT	2 <sup>nd</sup> working day from end of quarterly processing month
Annual Master Files	IMAN	11 <sup>th</sup> working day in the month of February
